STONE AGE

Introduction

Capturing the appeal and essence of natural stone, STONE AGE brings the beauty and appeal of stone into any design or buildings which cannot be matched or achieved by any other building materials.

The Simplicity and elegance of STONE AGE enables you to enjoy the unique feeling and homely ambiance of nature, providing wide design space and imagination for each individuals.

In every prospect, STONE AGE products lends stature and a sense of permanence, Turning what might have been an ordinary space into a remarkable designer show piece.

Advantages | Interlocking Features

Unique only to STONE AGE products, Special contouring at the edge provides space for cement grouts to escape and from additional bonding between individual stones and the wall.

Light - Weight Features

Typically one - quarter the weight of the full - thickness wall, STONE AGE eliminates the need for additional footing or wall ties.

Versatile

Comes in various texture and color that will suit any design without worries on color or tonality differentiation.

Feasibility

STONE AGE is suitable for both interior and exterior application, with numerous architectural and land-scaping accessories for the finishing touch.

Economical

Installation cost for STONE AGE is often less than half cost for laying natural stone.

Durability

Colorfast and virtually maintenance free, all STONE AGE products carry a 5 year limited warranty.
